Type: Wind Turbine Photovoltaic (Solar)

Installation Type: Off Grid Grid Tied Transfer Switch Split Circuits

Other (please specify): _____

System Installer : _____

Telephone: Work: _____ Mobile: _____

Other: _____

Note:

Registration does not constitute approval. Application and approval of system is still required to avoid penalties. Registration allows systems to exist without penalty during the application and approval process. Non-Compliant systems will have to be disconnected until compliance is achieved. Service to buildings with unregistered systems are subject to disconnection after the registration period ends.
